PROFESSIONAL SUMMARY

Microsoft-certified Data & BI professional with 5+ years' experience delivering scalable analytics, automation, and data strategy solutions across infrastructure, utilities, and real estate finance. Proven record of translating complex data into strategic insight, from automating reporting for £3bn infrastructure programmes to shaping the data foundation for Lloyds Banking Group's private rental business. My online portfolio demonstrates a commitment to creating measurable value through self-service analytics, governance, and automation.

CORE SKILLS

Data & Analytics Tools: Power BI (DAX, Power Query, Dataflows), SQL, Python, VBA, Power Automate
Data Architecture & Modelling: ETL Pipelines, Data Modelling, Data Governance, Data Validation
Delivery & Collaboration: KPI Reporting, Stakeholder Engagement, Process Automation, Self-Service Strategy

PROFESSIONAL EXPERIENCE

Lloyds Banking Group – Lloyds Living   **Leeds, UK**
Assistant Data and Reporting Manager   *May 2025 – Present*

- Designed and delivered a unified Power BI data model, creating a single source of truth that enhanced data consistency across finance, development and operations teams.
- Built scalable self-service dashboards enabling stakeholders to independently generate insights, reducing ad hoc reporting requests.
- Collaborated with external data providers to automate ingestion pipelines, improving timeliness and quality of financial and operational reporting.
- Worked closely with business users to gather requirements, shape reporting solutions, and ensure alignment with Lloyds Living's strategic goals.
- Automated manual processes using VBA, Power Automate and Power Query, reducing repetitive work and freeing 10+ hours per month.
- Contributed to the data strategy and reporting framework for Lloyds Living, the Group's rapidly growing private rental business, with a portfolio of over 5,500 properties.

Turner and Townsend   **Leeds, UK**
Performance and Reporting Analyst   *Apr 2024 – May 2025*

- Designed and deployed five end-to-end Power BI dashboards for Northumbrian Water's £3 billion AMP7 Programme, automating reporting for over 300 contracts and enhancing real-time decision-making.
- Reduced report refresh time by 50% through optimised DAX and Power Query transformations.
- Collaborated with cross-functional stakeholders to align reporting solutions with operational goals and deliver actionable programme insights.
- Conducted training sessions for project teams, increasing proficiency in dashboard utilisation and data interpretation.

WSP   **Remote, UK**
Data Analyst / Assistant Project Manager   *Oct 2021 – Mar 2024*

- Leveraged SQL to consolidate and manage complex data sets, ensuring comprehensive and accurate data integration across multiple sources.
- Developed automated Python scripts for data validation, enforcing data governance and ensuring 100% compliance with data quality standards.

- Created interactive Tableau dashboards that delivered real-time KPIs, enhancing decision-making processes for technical and management teams.
- Produced detailed process maps using Microsoft Visio, streamlining project execution and operational workflows.
- Managed financial oversight for five major National Highway schemes, reducing budget variances to under 5%.
- Oversaw change management processes for the £36 million A629 Salterhebble Scheme, ensuring timely submissions and adherence to NEC contract requirements.
- Acted as the primary client contact for the NCC PI Programme (£350k), efficiently addressing inquiries and driving solutions.
- Led bi-weekly coordination meetings with project managers and directors, enhancing communication and delivery standards.
- Managed an international team of 10, consistently meeting deadlines and maintaining high-quality output.
- Recognised with the STAR Award for exceptional project management and rapid career advancement.

CERTIFICATIONS

- **Microsoft PL-300:** Microsoft Power BI Data Analyst Associate (Feb 2025)
- **Udemy** – Python for Machine Learning & Data Science (Jan 2022)

EDUCATION

University of Bradford   **Bradford, UK**
BEng (Hons) Civil and Structural Engineering, First Class (78%)   *2017 – 2020*

AWARDS

- **STAR Award (2023)** – Recognised for proactive project management and outstanding performance.
- **ICE Student Prize (2020)** – Top Civil Engineering student.
- **ICE Local Branch Prize (2019)** – Best performance in Stage 2.
- **IStructE Raymond Corrigan Memorial Prize (2019)** – Honored for exceptional structural design skills.
