PROFESSIONAL SUMMARY

Microsoft-certified (PL-300) Data & Analytics professional with 5+ years across real estate and infrastructure. Currently the lead BI professional at Lloyds Living (Lloyds Banking Group), owning the full data and reporting function for a 7,500+ property portfolio valued at £1.5bn+. Expertise in Power BI, data modelling, real estate analytics and translating complex financial and operational data into clear, decision-ready insight for senior stakeholders.

CORE SKILLS

Data Analytics: Power BI (DAX, Power Query), Microsoft Certified (**PL-300**)

Data Engineering: SQL Server, MS Access, ETL Pipelines, Data Modelling & Architecture, Microsoft Fabric

Programming & Automation: SQL, Python, Power Automate, VBA

Project Controls: Cost & Schedule Performance (EVM), KPI Frameworks, Forecasting & Variance Analysis, Change Control, Risk & Issue Reporting, Programme & Portfolio Dashboards

PROFESSIONAL EXPERIENCE

Lloyds Living – Lloyds Banking Group

Leeds, UK

Assistant Data and Reporting Manager

May 2025 – Present

- Own the end-to-end data and BI function for a 7,500+ property build-to-rent portfolio (£1.5bn+) as part of a two-person team, covering data ingestion through to reporting and stakeholder delivery.
- Ingest, cleanse and transform datasets across income, budgets, lettings, arrears, expenditure, stocklist, compliance and complaints into a structured database, forming the analytics-ready foundation for all reporting.
- Built and maintain a unified Power BI semantic model supporting multiple report areas (financial performance, lettings, arrears, rent changes, compliance, EDLP, complaints and more), distributed via a governed Power BI app with RLS and audience-based access.
- Established a data governance framework including a full data dictionary (all tables, columns and Power BI metrics, built for audit), process documentation and end-to-end data flow diagrams.
- Lead monthly data governance meetings with external managing agents, setting submission standards, running the agenda and holding agents accountable for data quality and completeness.
- Developed automation tooling (VBA, Python) to streamline the monthly reporting cycle; key metrics include occupancy, void loss, rental income vs budget, ERV vs achieved rent, time to let, arrears and compliance certificate status.

Turner and Townsend

Leeds, UK

Performance Reporting Analyst (Project Controls)

Apr 2024 – May 2025

- Designed and deployed five end-to-end Power BI dashboards for Northumbrian Water's £3 billion AMP7 Programme, automating reporting for over 300 contracts and enhancing real-time decision-making.
- Reduced report refresh time by 50% through optimised DAX and Power Query transformations, improving data delivery speed for critical decision-making.
- Established KPI frameworks and variance reporting systems, providing programme leadership with actionable insights on cost, schedule, and performance metrics.

- Collaborated with cross-functional stakeholders to align reporting solutions with programme controls requirements and operational goals.
- Conducted training sessions for project teams, increasing proficiency in dashboard utilisation and data-driven performance management.

WSP

Remote, UK

Project Analyst / Assistant Project Manager

Oct 2021 – Mar 2024

- Managed and consolidated multi-source datasets using SQL for programme-level reporting across five National Highways schemes.
- Developed automated Python validation scripts, enforcing data governance and improving data quality.
- Delivered KPI dashboards providing real-time visibility of cost, schedule and performance for technical and senior management.
- Supported financial control and forecasting across five National Highways schemes, reducing budget variances to under 5%.
- Managed change control processes for the £36m A629 Salterhebble Scheme, ensuring timely submissions and compliance with NEC contract requirements.
- Primary client contact for the NCC PI Programme (£350k), managing stakeholder communications and driving resolutions.
- Recognised with the STAR Award for exceptional project management and rapid career advancement.
- Recognised with the STAR Award for exceptional project management and rapid career advancement.

CERTIFICATIONS

- **Microsoft PL-300:** Microsoft Power BI Data Analyst Associate (Feb 2025)
- **Udemy** – Python for Machine Learning & Data Science (Jan 2022)

EDUCATION

University of Bradford

BEng (Hons) Civil and Structural Engineering, First Class (78%)

Bradford, UK

2017 – 2020

AWARDS

- **STAR Award (2023)** – Recognised for proactive project management and outstanding performance.
- **ICE Student Prize (2020)** – Top Civil Engineering student.
- **ICE Local Branch Prize (2019)** – Best performance in Stage 2.
- **IStructE Raymond Corrigan Memorial Prize (2019)** – Honored for exceptional structural design skills.
